The 1972 survey shows an increase of 5% in the number of operators and 8% in the number of helicopters operated compared with the 1971 totals.

The largest increase in operators -- 13% -- was in the number of commercial helicopter operators. These companies also show the largest increase in the number of helicopters operated -- an increase of 15% over the 1971 total.

Helicopters are big business as shown in this continued growth in the civil use of rotary wing aircraft. Needed now are public-use heliports -- city-center and suburban facilities served by the short-haul helicopter transports and air taxis, as well as hospital heliports for the rescue ambulance helicopters.

The services provided by the commercial helicopter operators listed in the Directory are identified by the following code:

AGRICULTURE (A)	FIRE (K)
AIR AMBULANCE (B)	FORESTRY (L)
AIRFRAME REPAIR (C)	GAME HERDING (M)
AIRLINE (D)	INSTRUCTION (N)

Executives and Companies

A 1972 highlight -- President Nixon boarded one of the Presidential helicopters at the Nation's Number One heliport -- the South Lawn of the White House -- destination China.

The Vought Gazelle - 5 place, turbine and the Sikorsky S-58T - 16 place, twin turbine are now available for the corporate user.

The Citizens & Southern Banks (C&S) in Atlanta, Georgia -- the first to find to bank by helicopter -- not mail -- means money in the bank. Here one of their 4 Bell Jet-Rangers lands on a bank rooftop heliport.

Island Helicopters, Inc. provides daily commuter service for Long Island businessmen to New York's downtown Pan Am Metroport.

With a company helicopter -- today's businessmen can go all the way by air -- eliminating the drive to and from the airport.

Here another "go-anywhere -- land anywhere" helicopter -- high on a ski slope somewhere in the Rockies.

Government Agencies

New York City has been operating helicopters for over 20 years. Here's one of their fleet of 6 helicopters on patrol.

And on the Mall in Washington, D.C., the Metropolitan Police helicopters.

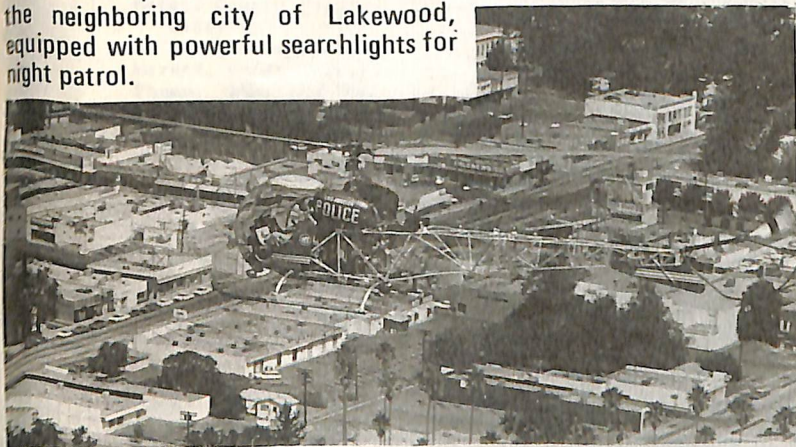

A Los Angeles City Fire Department Bell JetRanger drops fire suppressant chemicals on a blaze during brush fires in the city.

State Highway Police find the helicopter provides an air arm for law enforcement and rescue. Here the Virginia State Police with one of their FH-1100 helicopters and below one of the New Jersey State Police Enstrom F-28A helicopters which is used to help handle the traffic congestion of the millions of motorists traveling through the state.

Today more than 60 U.S. cities have this modern police protection -- the helicopter. Here's one of the Los Angeles Police helicopters and above one from the neighboring city of Lakewood, equipped with powerful searchlights for night patrol.

Today more than 325 hospitals in the USA provide heliports for the helicopter ambulance -- the Medicopter -- transporting highway accident victims -- emergency cases -- or transferring patients from small community hospitals to medical centers for specialized treatment.

In cities, rural areas -- along the highways, ambulance helicopters are on patrol, saving lives when minutes really count.

Western Helicopters, Inc. demonstrates an Alouette III ambulance helicopter for California's Loma Linda University Hospital.

More than 20 State Highway Patrols now operate helicopters for traffic surveillance, law enforcement, tracking escaped criminals, rescuing lost children and spotting stolen cars and hidden stills!

Delivering drilling mud to oil rigs in an area half land, half water is a must by helicopter. Landing on off-shore barges, pipe racks and pallets, this Hughes helicopter saved \$152 in one day in transportation costs.

A Vought Alouette III 7-place turbine helicopter brings a new lift to road construction.

A Bell 204B helicopter lowers a fully assembled steel building onto a boulder near summit of Laramie Peak, Wyoming.

New York Airways, Inc. operates three Sikorsky S-61's from the downtown Wall Street Heliport -- "30 seats every 30 minutes" linking Kennedy, LaGuardia and Newark airports.
