# ***“New York Firm Faces Bankruptcy Following Cyber Attack”***

**“Little & King LLC, a New York based marketing firm, faces bankruptcy after a computer virus infection allowed cyber criminals to drain the organizations bank account to the tune of \$164,000”**

**“owner of Little & King, noticed directly before the fraud incident that her computer was infected with a computer virus, called Zeus Trojan.**

**The bank says that owner is responsible because the computer virus had infected her machine, enabling the fraud to occur.”**
