

## COUNCILS, COMMITTEES & WORKING GROUPS

AIA's policy and advocacy positions are developed through its network of councils, committees, and working groups or subcommittees, which are organized by subject and issue under the appropriate AIA divisions. In general, Full Members have the opportunity to participate in all councils, committees, and working groups, while Associate Members are limited to participating in the Supplier Management Council and on working groups or subcommittees.

### Appointment Process

Full Member companies may appoint one official voting representative to each of AIA's councils and committees, along with an alternate voting representative. Additional member company representatives may attend meetings and receive information about council and committee activities. Council and committee appointments must be made through the member company's designated committee coordinator.

To add or change your representative on any of our councils and committees listed below or to find out who your company coordinator is, please contact: Melissa Arndorfer, Membership Services, at (703) 358-1094 or [melissa.arndorfer@aia-aerospace.org](mailto:melissa.arndorfer@aia-aerospace.org).
