HELIPORTS - HELISTOPS IN THE UNITED STATES CANADA PUERTO RICO

Published by
VERTICAL LIFT AIRCRAFT COUNCIL AEROSPACE INDUSTRIES ASSOCIATION 1725 DE SALES STREET, N. W. WASHINGTON, D. C. 20036 1968
Typical of the more than 100 off-shore oil rig helistops in the Gulf of Mexico.

A Los Angeles Airways helicopter inaugurates scheduled service at the Pomona, Cal. downtown heliport.

New York City's FIRST Public Heliport at East 60th Street and the East River.
**DIRECTORY OF HELIPORTS/HELISTOPS IN THE UNITED STATES, CANADA AND PUERTO RICO**

The 1968 Directory of Heliports/Helistops compiled by the Vertical Lift Aircraft Council of the Aerospace Industries Association reveals that the number of heliports/ helistops has increased fivefold since 1960.

Based on information provided by the Federal Aviation Administration, the State Directors of Aeronautics, the Canadian Department of Energy, Mines & Resources, helicopter operators and manufacturers, 1892 heliports/ helistops are listed in the 1968 Directory of which 158 are proposed facilities.

Of these 1892 heliports, 1734 are ground level and the remaining 158 are elevated.

In addition, the petroleum industry, a major user of helicopters, provides helistops -- landing platforms for helicopters -- on the more than 100 off-shore oil rigs in the Gulf of Mexico.

The U. S. Forest Service, another major user of helicopters, maintains approximately 300 heliports and more than 5,000 unimproved helistops around the country.

In the following tabulation of heliports by state, California continues to lead with 344 established heliports and 10 proposed.

| 1,892 | 1,225 | 357 |

In 1965, based on a Vertical Lift Aircraft Council survey, there were 34 hospital heliports in the country. There are 186 landing facilities for this modern aerial ambulance -- the helicopter -- to transport highway accident victims to the hospital, emergency cases from community hospitals to medical centers for specialized treatment and doctors and nurses to hospitals during heavy snows or when disaster strikes. (See chart spread for illustrations and list of U. S. Hospital Heliports.)

Today increasing emphasis is being placed on city-center and suburban heliports for public use. Airport congestion and the snarls of intra-metropolitan traffic have generated a new interest in fuller utilization of vertical lift vehicles as a complement to existing modes.

Kalispell General Hospital Heliport—the first designated, designed and approved by the Montana Aeronautics Commission under the Montana Hospital Heliport Program.

Michigan's Superior Ambulance Service, Inc. is the first land ambulance company to operate a helicopter. Equipped to handle cardiac arrest emergencies and coronary care transfers, the helicopter can replace four ground ambulances.

Patient arrives by Helicab on Santa Rosa's rooftop heliport-San Antonio, Texas.
A typical minimum cost, ground level heliport-Sierra Hospital, Sonora, California.

An ambulance helicopter lands at DC General Hospital—one of two civilian hospital heliports in the Nation’s Capital—the other heliport is at the Washington Hospital Center.

With an available exit-rooftops can become heliports-St. Mary’s Hospital heliport—Kankakee, Illinois.

* Indicates proposed
The modern Missouri Baptist Hospital heliport-St. Louis, Missouri.

U.S. Public Health Service Hospital heliport-Statens Island, New York.

Cumberland, Maryland's Sacred Heart Hospital heliport serves accident cases from the surrounding Blue Ridge Mountain area.
In Joliet, Illinois, this 50' by 50' heliport is located near the emergency entrance at St. Joseph Hospital.

Nearing completion—the rooftop heliport at Baptist Memorial Hospital, San Antonio, Texas.

A helicopter brings a burn victim to the St. Barnabas Medical Center's Hyperbaric Chamber, Livingston, N. J.—one of the 12 hospital burn centers in the country.

In an emergency, the hospital lawn becomes an "instant" heliport.
