MISSOURI CITY GETS
Huge Aircraft Plant
North American Factory
Will Employ 15,000
Vow to have the model plane the leading manufacturer in the United States... In the model plane the leading manufacturer in the United States.

Baltimore Plants Plan
Increases Working Area

The new plant will be utilized for aircraft production in the Glidden-Martin plant and will be operated as a unit of the Atlantic Coast Line's equipment division.

AIRCRAFT AROUND THE CLOCK

It's a rare airplane pilot who likes his wife so well that he is at heart a warm, home-loving type. He knows how to wash and tidy the place in which he lives and keeps it in perfect order. An aptitude for washing a hundred and one things at once comes to mind. He knows how to wear clothes. He knows how to fly an airplane, whether it be a small one or a large one. He knows how to estimate the weather, high pressure systems, low pressure systems, etc. He knows how to keep in shape and he knows how to work. The condition of his body is usually good. He is not a sickly person. He is a strong, hearty, robust fellow. He knows how to live a happy life on a small budget.
