**Aviation**

**INTERVIEW**

**Entire Federation of the U.S. aircraft industry is illustrated by the report of the Airframe Plant Council, which shows American aircraft companies' production and sales figures and the increase in profits and capital expenditures for the past year.**

**Every State Does Its Bit**

From Maine to California, from Washington to Texas, each of the 48 states contributes material that makes possible the production of modern warplanes. Material supplied by state, by state: follow.

**MATERIALS FROM ALL STATES, SURVEY DISCLOSES**

**Airframe Plant Council**

**American Aircraft Production of a Nation...**

**S. M. R. E. July 15**

**RETAIL TO THE FUTURE**

We are very much astounded at our own ability to understand and appreciate the possibilities presented by Radio News Features. It has always been our impression that the radio network is now a reality and can be of great benefit to everyone who is interested in aviation.

**National Defense**
