Aircraft Companies Speed Production

By Making Employees "Safety-Conscious"

**LOS ANGELES, April 6.—The health and safety of the aircraft employees is receiving attention in aircraft plants all over the nation in the war effort as bullets.

"The cooperation of employees who want to be on the job all the time, the aircraft companies have emphasized on plant tours and in management correspondence," Scale and regulation, as well as health and safety, have been brought down in every aircraft plant.

"The management has some success in reaching its every effort to
